

June 06-08, 2016. London, UK.

Representatives of Crestan attended Infosecurity Europe - Europe's number 1 information security event that took place on the 6th, 7th and 8th of June 2016, in London, UK.

The event entailed eight conference and seminar theatres and a comprehensive program of workshops and training courses.

Topics revolved around next-generation information security methodologies and tactics, the latest information security risks, as well as strategic insights.

Speakers included information security thought-leaders from public and private sector end-users, policy-makers and government, analysts, industry experts, service providers and vendors.
